TEL AVIV UNIVERSITY TRUST
Pursuing the Unknown

With the Winter Olympics drawing to a close, our faculty have been slaloming a path to success in the scientific world. Responsible for making the world's first [3D printed heart in 2019](#), Professor Tal Dvir and his team continue to astound. Their latest research uses lab-made spinal cords, engineered with human tissue, enabling paralysed mice to walk. This breakthrough at the [Dvir Lab](#) has made recent headlines in the global press, notably in [The Standard](#), [Sky News](#), and [ITV](#). They hope to start human clinical trials in the next few years.

In the world of space, TAU alumnus and co-founder of Spacell, Yonatan Winetraub, has embarked on a mission to hummus and beyond, taking lead of a team aiming to grow chickpeas in space and ensuring that our national dish makes it onto the extraterrestrial menu too!

We encourage you to join our [Cycle for Scholarships](#) global campaign, which is just around the corner. See below for more information and please get on your bike and help TAU!

Shabbat Shalom,

Cara G. Case
Chief Executive

NEWS and UPDATES

"Our goal is to produce personalised spinal cord implants for every paralysed person, enabling regeneration of the damaged tissue with no risk of rejection."

Professor Tal Dvir

TAU International Open Day a Roaring Success

Hosted by the highly informative and energetic David Ryan, prospective students got to experience a taste of life at TAU, taking part in TAU International's Open Day. With 1,200 applicants given the chance to find out about everything TAU, the event spanned two days and was tailored to the interests of each student, with expert lecturers on hand to deliver rousing introductions that would make anyone consider enrolling.

With [applications for 2022-2023](#) now open, international students should be thrilled at the prospect of finding a new home in the hallways of the university.

Mourning a Dear Friend

Tel Aviv University deeply mourns the passing of

Derek Bluston z'l

Long-standing Governor and friend of the University, devoted supporter of Tel Aviv University's Steve Tisch School of Film and Television.

We extend our heartfelt condolences to Irene and the entire family.

May his memory be a blessing.

David Meller CBE Chair Cara G Case Chief Executive
