TELAVIV UNIVERSITY TRUST  
Pursuing the Unknown

TAU  
2022 Board  
Of Governors

**BIG IDEAS.  
CHANGING  
LIVES.**

Dear Supporter,

Last week I was thrilled to be in Israel for the first in-person Tel Aviv University [Board of Governor's \(BOG\) Meeting](#) since 2019.

Full of friends and colleagues from all over the world, it offered the perfect opportunity to reconnect with our global community after so many months apart and focus on building a future that will see the university continuing to thrive in an ever-changing landscape. I was especially pleased to be able to accompany our UK Governors around TAU's beautiful campus where we met TAU leaders and faculty to discuss cutting edge projects and developments.

Among the many prestigious speakers at the BOG were [Prof. Katalin Kariko](#), biochemist and senior vice president of BioNTech, who played an integral part in developing the technology behind mRNA vaccines; economist [Mark Carney, OC](#), former Governor of the Bank of England; and the UK's [Prof. Sir Michael Berry](#), a leading theoretical physicist known for the Berry phase.

I hope you will scroll through this newsletter and follow the links to many fascinating lectures, events, award presentations and more. Most sessions were recorded and can be watched easily [here](#).

While I was in Israel, I had the great pleasure to meet our distinguished alumnus, Hagai Levi, who will be joining us as our keynote speaker at our upcoming **Night at the Movies** at BAFTA on 15th June. For those who haven't yet booked, please don't forget to [secure Your Place](#) at an event that will deliver a showstopping cinematic experience, featuring a Director's Cut of one of Hagai's early works, *Snow in August*, premiering with us in London. With some surprises still to come, it will be a night to remember!

Shabbat Shalom,

Cara G. Case  
Chief Executive

## **THE DAN DAVID PRIZE: FAST FORWARD**

# **THE DAN DAVID PRIZE: PAST FORWARD**

The winners of the [2022 Dan David Prize](#) - nine groundbreaking historians and researchers from around the world - arrived in Israel last week to receive the prestigious prize, the largest history prize in the world, with recipients awarded \$300,000 dollars each at a festive ceremony at Tel Aviv University.

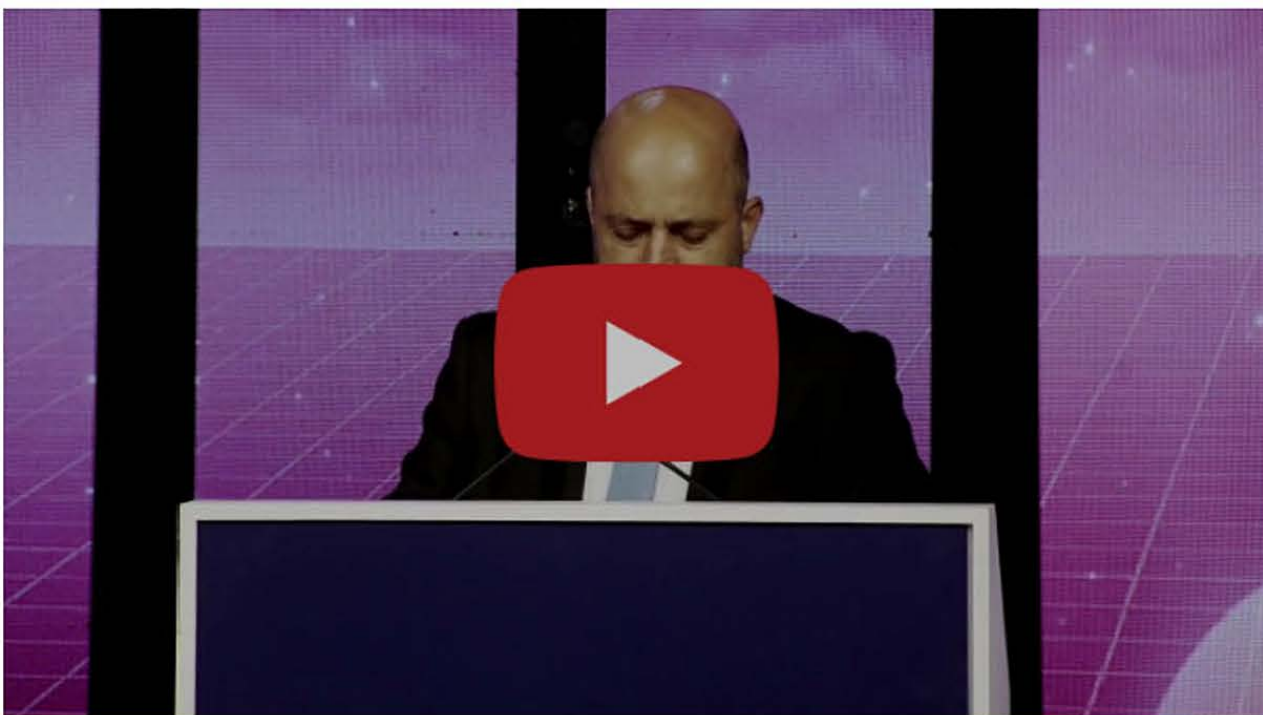

At a time when documented facts and evidence-based conclusions are increasingly contested, understanding our history is more important than ever. That's why, to mark the Dan David Prize's 20th-anniversary last year, the Prize was redesigned to celebrate scholars and practitioners whose work illuminates the human past, bringing a historical lens to current debates and our thinking about the future.
