

As another semester draws to a close and summer hits full swing, TAU's faculty remain active, hitting the front pages with some incredible breakthroughs. See below and enjoy a selection of fantastic news and scholarly articles, including for some, a timely prompt to take advantage of a 4th Covid-19 vaccine.

We are busy planning an exciting roster of events starting this autumn and taking us through the year, and look forward to sharing this with you in the coming weeks.

If you find yourselves in Israel during these summer holidays, TAU's [Botanical Gardens](#), [Campus Art Galleries](#), and [Steinhardt Museum of Natural History](#) are all must-sees! Appropriately, a new exhibition, [Global Warning](#), illustrates the complex reality and processes that cause climate change, alongside predictions for the future, raising questions and opportunities for changing personal habits. With a train that stops right outside the university, all features are easy to access and provide a great day out for all ages.

On the 4th of August, please join us for the rescheduled *Israel and the Middle East in a Changing World* webinar with Professor Uzi Rabi. Click [here](#) to register!

Bearing in mind the scorching heat we've experienced in the UK, I hope you and yours are well and wish you a lovely summer!

Shabbat Shalom,

Cara G. Case
Chief Executive
